

# COVID-19 Jobsite Prevention/Safety

---

## **Jobsite Action by the Contractor:**

- Adding washing stations
  - Disinfect toilets/port-a-potties daily
  - Provide hand sanitizer
  - Clean trailers daily
  - Daily safety meetings, however these meetings should not be in the trailer or enclosed space, preferably open area/outside with the appropriate distance apart or hold phone conferences instead
  - Members/workers should eat lunch in their vehicles, not in a trailer
- 

## Cleaning Agents for COVID-19

---

Please find the link below for cleaning procedures to disinfect COVID-19 as well as a brief synopsis of the information provided in the link:

<https://www.ncbi.nlm.nih.gov/pubmed/32035997>

To disinfect surfaces from COVID-19, **1 minute or longer using the following:**

1. Concentrated Ethanol (70%+) (“Rubbing Alcohol”)
2. Diluted Hydrogen Peroxide (0.5%)
3. Diluted Sodium Hypochlorite (0.1%) (“Bleach”)

This means:

- Most household products (ie Lysol) containing Benzalkonium chloride are less effective
